Revival Compère and Race Commentary Team

Nathan Ralls and Rick Greenwood will be entertaining everyone as event compères and race commentators.

Iconic Off-Road Rules

There are six ICONIC 2WD classes and six ICONIC 4WD classes.

2WD FESTIVAL	2WD BAJA	2WD SPRINT	2WD VIPER	2WD TITAN	2WD TRUCK
4WD FESTIVAL	4WD BAJA	4WD SPRINT	4WD VIPER	4WD TITAN	4WD ULTRA

We recommend keeping your buggy standard to what was seen racing back in the day. If you're concerned about your buggy's eligibility, contact the Scrutineering Committee by email to: iconicoffroad@outlook.com **well before the event** and the team will assess it. Assessors will first consider whether this was **commonly seen racing** back in the day.

1. 10.5 Brushless Motor limit. No Brushed Motor limit.
2. Shocks, slippers, differential, wheels and tyres are open.
3. Dogbone, UJ and CVD driveshafts are open except for the latest CVDs that mount within the hub.
4. **Bodies** must have been available during the years of that buggy's original lifespan on the track and **Wings** should be representative of the era.
5. There is a 2s LiPo battery limit and they must be in a hard case. Battery weight/size must be to the battery manufacturer's specification.
6. The maximum permitted buggy width is 250mm. There will be a box that the buggies will need to fit into.

7. Additional permitted weight is a maximum of 50g and must be commercially available stick-on 'wheel' weights only.

8. Motor, transmission orientation, servo and battery should remain in the kit position. If this is not possible with modern electrics it should be as close to kit as possible. If there are any issues, please contact the Scrutineering Committee before event.
9. Modifications and customisations must be minimal. Any customisation and materials must match those commonly seen racing during the years of that buggy's original lifespan on the track. 'Homemade' and 3D printed parts must match the original item's geometry but can be strengthened in areas for reliability or upgraded with aluminium parts used back in the era. Alloy parts must replicate the original part in all aspects or be approved by the Scrutineering Committee online before the event.
10. We don't expect entrants to run newer parts (for example: arms) on an older buggy. If a buggy does have newer vintage parts then it should be entered into a higher class. We do not want to see modern parts on vintage buggies.
11. Re-released buggies from Tamiya, Team Associated, Kyosho, Schumacher and Yokomo are eligible in their original release's class. Hop-ups for those buggies from their manufacturer are also eligible.
12. **Spirit of the sport within its era.** This allows period modifications and keeps vintage racing as vintage racing. Anything exploiting a grey area will be reviewed by the Scrutineering Committee. If you're unsure that your car fits the rules, you can email pictures to the committee for approval to iconicoffroad@outlook.com

There will be a team of **Scrutineers** at the Revival. After every heat and final, buggies must be left at scrutineering before going out to marshal. If a buggy is ineligible, we will do our best to help the entrant make it eligible. If we cannot make the buggy eligible, then its time will not be recorded. Please consider this when preparing your entry. The best solution all round is to keep it standard to what you'd have seen racing back in the day.

Eligible Buggies

The following buggy lists are to guide participants when entering the Revival. The lists aren't exhaustive so if you don't see a buggy you'd like to run or have a general query, please contact iconicoffroad@outlook.com. There are also links to three 'Thomas Peter Old School Euro Masters' documents to help guide Digger, Hotshot and MIP racers.

The Schumacher Racing Daniel Rowlands Revival Veteran Award 2026

Dedicated to the late **Daniel Rowlands**, this special award, presented at one of the two Revivals, will go to an entrant who has made a notable contribution to the Revivals over the years.

The Brett Davis Newcomer Award

Dedicated to the late **Brett Davis**, this special award will be presented on each day to who we feel made the best Revival debut.

Chimera Model Sport Concours

One lucky concours winner from the Drivers Briefing Photo call on each day will win a Modelsport Pit Shop voucher courtesy of Chimera Model Sport.

HiTEC Icon of the Day Award

This award, sponsored by HiTEC <https://hitec.uk/> will go to the most stand-out or unique buggy racing on each day.

Mannie's Marvellous Marshal Award, sponsored by Modelsport

This award, presented by **Mannie Panesar** and sponsored by **Modelsport**, will go to the most impressive marshal on each day.

Ralls Racing Cracked Like a Crème Egg Award

This fun award, presented on Saturday and on Sunday, will go to the funniest incident/meltdown!

Wheelie Race

A free-to-enter wheelie race will be held right after open practise on Friday late afternoon. 2WD Tamiya/Schumacher/Marui Wheelie vehicles only. They must be a Wheelie Chassis and nothing custom mod'd from another chassis. Four winners from 3 heats will go into a Final and the top three in the Final will receive an award.

Entries must wheelie from a standing start and be equipped with a Silver Can or Tamiya Torque Tuned Motor.

That's about it. It absolutely has to be kept simple as this is just for a laugh to celebrate 10+ years of the Revival.

Merchandise

Official Revival 2026 T-Shirts will be on sale.
